# Secure Escrow Services

It's a different world we live in these days and scammers are getting smarter. While escrow services have been around for decades, never before has the value been so apparent.

POP Yachts is dedicated to ensuring that both sellers and purchasers have the maximum protection against fraud. In our 12 years of business, we have built a solid reputation as an ethical and responsible manager of customer funds.

---

We securely send and receive an average of 1,400 wires / month.

We've completed 16,700 transactions and we've never had a complaint filed against our license:

<https://www.myfloridalicense.com/viewcomplaint.asp?SID=&licid=3776117>

We have collaborated with hundreds of lenders of both local and national brands to arrange loan payoffs, obtain loan approvals, and collect ownership paperwork in accordance with individual institution requirements.

From 2015 - 2019, we securely collected \$432 million from purchasers. At direction from the purchaser, we either paid off the seller's loan and transferred the balance to the seller or we returned purchaser's funds.

---

Whether you are a customer or a lender, we are happy to answer any questions that will help to facilitate a successful sale of our customer's vessels. You may reach us at (941) 894-3215 or [closingservices@popsells.com](mailto:closingservices@popsells.com).

## Safety through PIN Verification

We use a state-of-the-art PIN verification system (a first for our industry) to guard the transfer of funds against hacker interference or phishing attacks.

## Listed in Inc. 5000

POP is honored to have been placed on Inc Magazine's list of the fastest growing companies in America (twice, 2015 and 2019).

## Verifying our Wiring Instructions

To verify our wiring instructions, please visit:
